

A Success Story from **McCormick Rankin Corporation** in Kitchener, ON

Madhav Baral is from Nepal, where he worked for several years as a Water Resources Engineer after completing his undergraduate degree in Civil Engineering from the Indian Institute of Technology in Roorkee, India. He immigrated to Canada seven years ago with his family. He studied at the University of Toronto and completed his M. A. Sc. in Civil Engineering in September 2006. While in school Madhav and his family became Canadian citizens. Madhav was hired as a Water Resources Engineer-in-training by MRC in April 2007.

Madhav has a very strong technical knowledge, is detail-oriented and a very good worker. His main areas of expertise are hydrologic and hydraulic modelling, the design of storm water management systems, and hydraulic design of water and flood control structures. He has become an asset to the company in a short period. Madhav became a Professional Engineer in November 2007.
